Introducing New Gabriel Ready Mount Struts

Available now at Parts Central

ReadyMount®

All ReadyMounts:

- Pre-assembled, saving up to 1 1/2 hours in installation time
- Each design is 100% Fit- and Ride-tested by our Answerman Techs to verify proper fit and real-world performance
- Super-finished chromed piston rod inhibits corrosion, ensures proper seal lubrication and consistent wear surface
- One-piece assembly which ensures fast, safe installation every time and:
 - Requires no special equipment or additional parts
 - Eliminates the need to remove dangerous coil springs and use expensive string compressors
- Includes all-new precision engineered Gabriel struts and components
- Each design is extensively tested for durability and performance in Gabriel's test labs and on U.S. roads

The new family code for the complete struts is 6. Please set up this family in your system under GAB. All the new numbers are "M" series.
